DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-46 are rejected under 35 U.S.C. 102(b) as being anticipated by Simmons '980. Simmons discloses a cutting chain (figures 1-9) comprising a plurality of links (as seen in figure 1) wherein at least one link comprises a pair of parallel side plates 9, a support member 11 bridging the side plates, the support member having an arcuate support surface (as seen in figures 2 and 3) and a riser member 10 between the side plates and the support member. Also, Simmons shows the link having at least one cutting member 23 attached onto the arcuate support surface (as seen in figures 1, 2 and 6), the cutting member capable of being positioned orthogonally relative to the support surface and canted relative to the direction of travel (as seen in figure 2); and a drag plate 18 attached to the support member (as seen in figures 2 and 6). Further, Simmons shows the support member having an interior passage (as seen in figures 2 and 3) parallel to the direction of travel of the cutting chain.
